

New Year's at the...

...KLINES

On this special day, we ate breakfast and my dad had coffee. I ate fast so I could do my daily chores. We went on a hike in a forest. I saw a glider that soared like an eagle. We were able to climb a lot of the surroundings. It contains hidden treasures. I was ready for my chance to do fireworks. They were fancy and full of color.

...MCCABE'S

On New Year's day we had breakfast. We took the chance to go to the beach. Mom and dad drank coffee there. I went fast on my boogie board. Anyway, I wish we could have gone to a hotel with hidden surprises. It would be nice to have forest surroundings with fawns and eagles.

...LEE'S

On the New Year's day, we had a chance to have a fancy breakfast. There were many colors on the table. Some of the food contains flour. We put the leftovers in the refrigerator to freeze. My uncle drank coffee. On television, I saw an eagle flying fast over a forest. It can

see a rabbit hidden in the surroundings. On New Year's day, relatives visit one another. I am ready for the new year.

.....FUJII'S

My family started celebrating New Year's day with my Aunt Bonnie, Grandma, and Grandpa. Me and my Aunt were holding sparklers while my dad was popping fancy fireworks. My mom was holding Koa who soon was ready to go inside and my grandparents were watching. Anyway the wind started to blow and I was getting cold so I told my mom I'd go in the car and watch. My mommy left the door open. I felt better. I got more than one chance to play in the car! I'm happy about that!

...SUGA'S

We started popping firecrackers on New Year's Eve. We burned up our friends' bucket but we were still popping firecrackers at midnight anyway. My dad says to get in the ready position before throwing firecrackers. On New Year's day we ate mochi soup for breakfast in the morning. We didn't have

to do our Kumon arithmetic. My family went to two graveyards to put fancy flowers with bright colors in the vase. After that we went to our Uncle's house where the small kids tried to sneak up fast and throw pop pops at me. I excuse the little kids. I kept the firecrackers hidden from the little kids.

...MEHLHORN'S

The first thing we did when we got to granny and papa's was play with fireworks. I burnt myself five times; two on my left arm, two on my right arm and one in my mouth. It was fun lighting fireworks anyway.....Some of the reasons that made New Year's fun were I had a chance to play my DS Lite, I learned how to light fireworks, and I heard my cousin scream like a girl because he was scared of getting burnt. I got burnt and I never screamed.
