I have three basic rules for student behavior:

- Be Responsible***
- Be Respectful***
- Be Safe***

These rules will be supported and enforced in our classroom. Here is an example of how these rules translate in our class:

1. Be in your seat and quiet when the bell rings.
2. Take responsibility for your own behavior.
3. Show respect for yourself and others.
4. Always act in a manner that is appropriate.

Following these expectations will contribute to a positive, safe, and productive learning environment for everyone. Students who violate these rules will be given one warning. Continued lack of respect for rules will result in a demerit.

Don't quit five minutes before the miracle happens!!!
